MAGIC CUBE

魔方淋浴系统

A FREE COMBINATION SHOWER SYSTEM

DESIGNN FOR ALL POSSIBILITY

自由组合淋浴系统 创造更多可能性

魔方系列, 这是一个因渴望成就随心组合淋浴系统而诞生的设计。

它的主要优点, 从功能和设计的角度来看, 通用模块自由结合, 便构造成多种用途的淋浴系统。

无论是单一的淋浴模式, 还是多功能的按摩、喷淋模式, 就像砌积木一样, 把盒子连起来

功能无限延伸, 但并不需要重复模具, 创造最小体量, 最大可能。

魔方系列配置多种面板及手轮设计, 美学和人性关怀相互调和。

定制私属浴室, 适应百变空间, 给日常生活更好体验。

Magic cube, a collection born from the desire to develop a free combination shower system.

Its main plus, that makes it unique from a function and design point of view, the universal module is freely combined, which constructs a shower system with a variety of uses.

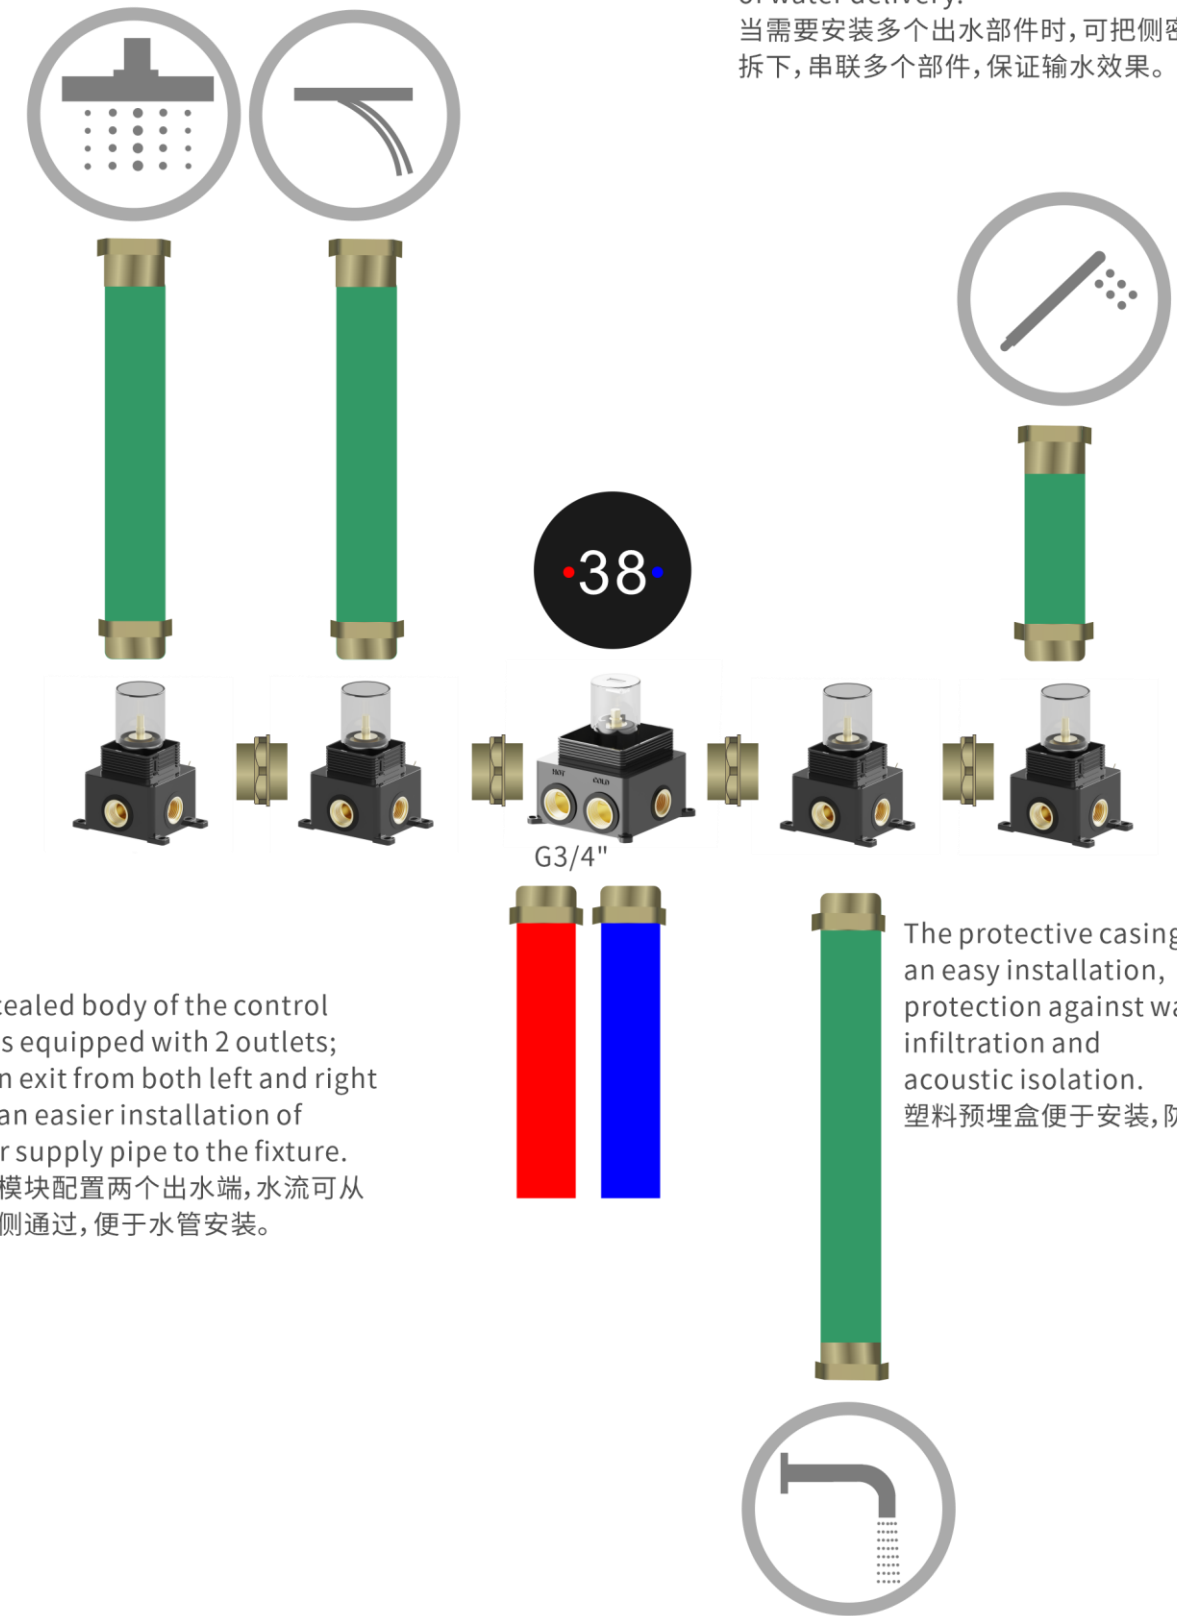

Whether it is a single shower mode, or a multi-function massage and spray mode, just like the building blocks, connect the box.

The function is infinitely extended, but the mold does not need to be repeated, creating the minimum volume, the maximum possibility.

The Magic Cube series is equipped with a variety of cover plate and handles design.

Customized a private bathroom, adapt to the variable space, and give a better experience for daily life.

The water inlet of the control module is connected to 3/4" pipe, giving big water flow supply
恒温控制模块的进水口
连接3/4"管道, 大流量供水

In case of multiple installation, the removal of the side sealing plug allows the connection in series of more fixtures, guaranteeing unchanged performance of water delivery.

当需要安装多个出水部件时, 可把侧密封塞拆下, 串联多个部件, 保证输水效果。

The concealed body of the control module is equipped with 2 outlets; water can exit from both left and right to allow an easier installation of the water supply pipe to the fixture.
恒温控制模块配置两个出水端, 水流可从左侧或右侧通过, 便于水管安装。

The protective casing allows an easy installation, protection against water infiltration and acoustic isolation.
塑料预埋盒便于安装, 防水、隔音。
